

**SJ Joinery &
Building Ltd**

The art of
construction

renovate

We specialise in barn conversions and renovation. Our experience tells us that to get the most from an old building we should treat it with respect. Keeping the balance between the old and the new is vital for a beautiful and practical home. You want a home with character and the convenience of modern living. We use traditional building materials and will reuse and repair where we can. We can also source salvaged materials or the most high tech modern ones to ensure you get the best from your build for years to come.

create

Creating a new building is something very special. We have 30 years of experience in building new properties. Choosing the right building company to bring all the trades together is important to bring in your build on time and on budget. Our team covers everything you need from the groundwork to the roof, and everything in between. Our attention to detail is second to none. So whether you want traditional or modern we will build it for you.

service

Stuart Johnson has over 30 years experience in joinery and building. The company, SJ Joinery and Building was incorporated in 2004. The successful company has many prestigious clients including Fisher German LLP, Smiths Gore LLP, South Derbyshire District Council, Duchy of Lancaster and Savilles. SJ Joinery has a regular workforce of employed staff and independent sub-contractors offering a wide variety of skills and experience to transform your plans into reality.
